THE SOLID ROCK TRAVEL CLUB

- *JOURNEY PLANNING ASSISTANCE*
 - *GORWING YOUR TRAVEL CASH*
 - *PROTECTING YOUR TRAVEL PLANS*
-

*Working through the
Ghana Commercial Bank*

THE SOLID ROCK TRAVEL CLUB jointly set-up by Solid Rock Executive Travel & Tours Ltd and Gershon CompuTech Ltd, with the approval and collaboration of the Ghana Commercial Bank Ltd.

Our Aim: As the first Travel Club of its kind in Ghana, we aim to use Information and Communication Technologies in a creative manner to offer Ghanaians the most innovative of services within the Travel and Tourism industry.

The Solid Rock Travel Club enables Ghanaians from all walks of life to start planning and saving for their future travel, as well as growing their savings to enable them raise the needed amounts quickly.

This is done by opening a separate non-cashable Travel Account at any branch of the Ghana Commercial Bank in the country using your passport and bank statement, application forms obtainable from our office or downloadable from our website. The Travel Account is locked jointly by the customer the club, to ensure the money in the account is used for the intended purpose only i.e. for travel tickets, visa fees etc and not for other non-travel purposes such as funerals. All movement of money out of the account will be by invoices sent to the bank and countersigned by the customer who ultimately controls movement of funds out of the account.

We plan your journey together. When its time to travel, you just tell us and we will arrange your ticket, using the money we are growing

for you. Remember you will have to grant us permission to tell the bank to transfer money out of your Travel Account to even to buy your ticket. We cannot take it by ourselves and neither can you: to be sure nothing spoils your travel plans.

On joining the club, you are also given a Referral Number (which is sent only by electronic mail), with which you are awarded a commission (called 'cash back') for every customer you send to purchase goods or services from the Solid Rock or Gershon CompuTech. You can refer as many customers to us as possible and use the commission to grow your travel cash. You are not entitled to any commission without being a club member.

There is commission for every thing/service Solid Rock or Gershon CompuTech offers such as air-tickets, tourism tickets, website building web hosting, graphic design etc. and computer classes and even pen-drives.

If you give yourself enough time, you can actually build your travel cash using just commissions and not using your own money, just by using your single Referral Number, that is why it is especially good for students.

You can also use your Passport Number to log onto our database on the Internet or phone the office to check the growth of your commissions.

To make your money grow even faster, you can put it into a group account so that our specialists in investments can invest it for

greater yields. Remember we can get a better deal from the bank because of our strength in our numbers. To help each other's travel plans, you can even join Travel –Susu Groups of a maximum of 10 members inside the club.

Levels of membership: There are three levels of membership designed to meet the needs of all Ghanaians: workers, students, families, friends, business-men/women even corporate travellers.

- **Bronze Membership:** They have only Travel Accounts at their local branch of GCB
- **Silver Membership.** Have jointly controlled local Travel Accounts like Bronze members but in addition, they can participate in the club's Group Account at the High Street Branch, Accra where specialists in investments will be making our money grow faster. There is no requirement of a minimum monthly contribution.
- **Gold Membership:** In addition to their jointly-controlled Travel Account., they also participate in the Group Account. by making a minimum monthly contribution of GHC100,000 into the account for at least 2-years. Their dependants do not need a formal application process to be given Referral Numbers to start getting their commissions.
